

HOW DOES THE MAILING ADDRESS CHANGE AFFECT ME?

Earlier this year, we released official communications concerning changes to post office box mailing addresses. While Beacon encourages providers to submit claims and correspondence via electronic means, we recognize that some providers still use paper submission.

As previously discussed, Beacon entered into a partnership with FIS Global, a US-based company, to help us leverage technology and industry-standard tools to shorten claims processing times and increase data quality. The intended outcome is to receive and enter all incoming paper claims via a single, standardized process, improving turnaround time and efficiency.

In January, as part of the Mailroom Paper Intake project, some post office boxes were closed and new post office boxes were opened. Additionally, many of the closed post office boxes were consolidated to a single new address. Please see the listing of closed and opened post office boxes below.

A forwarding order is in place through the US Postal Service to forward all mail sent to the old post office boxes to the new ones until January 2018, unless otherwise indicated on the envelope. Beacon has already communicated this change to clients and providers, and is currently working to update all company correspondence and phone scripts to reflect the new addresses before the end of 2017.

Please review this information and update your records accordingly. If the old post office box you use is not found in this table, it means the address has not changed at this time.
