

## New Hampshire: Applied Behavior Analysis

**Important: Please read this communication carefully and share with all appropriate staff.**

Beacon Health Strategies LLC (Beacon), a Beacon Health Options company, is currently recruiting providers for its New Hampshire Medicaid network. As a provider located in New Hampshire or a bordering state, we are encouraging you to apply for participation in the New Hampshire provider network as there is a great need for providers in this state.

The State of New Hampshire Department of Health and Human Services (DHHS) recently reevaluated the rates and codes used for Applied Behavior Analysis (ABA) for Autism Spectrum Disorder. This review has resulted in a more favorable rate structure that went into effect on May 1, 2019.

For more information about New Hampshire ABA rates, please see below or visit Beacon’s [ABA Network-Specific](#) page.

If you are interested in participating in the New Hampshire Medicaid network for Beacon, you must be enrolled with New Hampshire Medicaid. To begin the process to request an application to join the Beacon provider network, please visit our [How to Become a Provider](#) page. Once there, click on “For Beacon Health Strategies” and “RFA – Individual Practitioner/Group.”

Once you complete the request for a Beacon application, follow the instructions on the form, which explain to return via email to [RFA@beaconhealthoptions.com](mailto:RFA@beaconhealthoptions.com) or fax to 888-643-4396. If you have additional questions, call our National Provider Service Line at 800-397-1630 Monday through Friday between 8 a.m. and 8 p.m. ET.

We look forward to the opportunity to collaborate with you and expand our network of ABA providers in the state of New Hampshire!
